1. What is the purpose?

- *The purpose of my website is to promote a pest control solution to prevent pests such as insects and unwanted animals from affecting the environment, homes, and gardens. It aims to provide users with helpful information and eco-friendly pest control strategies.*

2. Who are the potential users?

- *Homeowners who are dealing with pest problems*
- *Gardeners and farmers looking for sustainable solutions*

3. What are the requirements?

- *Easy to navigate layout*
- *Clear and engaging content*
- *Visual elements (images/icons) to support the information*

4. What are the specifications?

- *A minimum of 3 functional pages (Home, About, Contact/Solutions)*
- *Consistent colour scheme and fonts*
- *Navigation bar on every page*

5. What tools and techniques did you use in developing the website?

*HTML and CSS to structure and style the website*

6. What testing (you checking your website) did you do to make sure it met the basic functionality?

7. What improvements did you make as a result of your testing?

- *Improved colour contrast for accessibility*

8. How did these changes improve the website's fitness for purpose?

- *changes made the website easier to use and more accessible for all users. Fixing the links and making layout adjustments ensured the information could be accessed smoothly on different devices*

9. What conventions did you follow?

- *Descriptive headings and subheadings*

10. What trialling did you do to develop the outcome?

- *Compared my site with professional pest control websites*

11. What improvements did you make as a result of your trialling?

- *Improved the homepage to include a summary of all pages*

12. How did these changes improve fitness for purpose?

- *They helped make the website more informative, appealing, and easier to use. Feedback helped ensure the design met users' needs and was clear in promoting pest control solutions.*

13. How can you show the tools and techniques you applied were effective in producing a fit-for-purpose outcome?

14. Discuss how your website promotes kaitiakitanga and what evidence you have from your trailing to show this.
